## SUMMARY

Dedicated Frontend Software Developer with a 6+ year of experience in frontend development to deliver exceptional customer experience. Eager to tackle more complex problems and continue to find ways to maximize user efficiency

## PERSONAL EXPERIENCE

### Software Engineer                                                    April 2023 – Present

Persol Systems Limited

- Worked with the software development team to build and integrate 100+ client systems seamlessly which greatly improved customer satisfaction
- Built a CICD Pipeline integration, pulled request, reviewed code, and tested

### Software Developer                                                  March 2021 – April 2023

Symliq Developers

- Produced clean, efficient code based on specifications which decreased development time by 50%
- Developed and shipped several highly interactive web and mobile applications which increased customer growth by 10%
- Collaborated closely with cross-functional teams including developers' other developers, UX designers, businesses and system analyst, resulting in 20% increase in customer satisfaction
- Implemented a feature to allow users to export their usage data as CSV files which increased customer retention by 20%

### Junior Auditor                                                        Sept 2017 – Oct 2018

Madina Polyclinic kekele

- Devised and implemented robust digital acquisition plans which bought about 15% increase in revenue
- Ensured precision in financial reporting, budgets, and forecast which prevented unnecessary spending on unplanned purchases

### Junior Developer                                                    Sept 2016 – Oct 2017

Controller and Accountant General

- Executed user interface designs from product requirements and User interface specifications
- Performed unit testing of code changes to ensure that new code did not break existing functionality and addressed any issues within 48 hours
- Integrated software components and third-party programs which enhanced overall user experience by 45%

# SKILLS

- Proficient in JavaScript frameworks: React, Vue, Next
- Expertise in Golang, specializing in building high-performance, scalable backend systems, developing RESTful APIs, microservices (Echo), with proficiency in Go's concurrency patterns, deploying high-performance cross-platform mobile applications
- Proficient in AWS cloud infrastructure and Kubernetes container orchestration
- Skilled in Web APIs, particularly REST architecture and gRPC architecture
- Strong skills in HTML, CSS, and frameworks such as Bootstrap, Tailwind, and SASS
- Expert in version control and code management tools: Git, GitHub, Gitlab, Netlify, Vercel, Jira, and Slack
- Proficient in Flutter development, with extensive experience in building applications
- Strong problem-solving skills, breaking down complex problems into smaller modules
- Effective communicator of business logic and requirements to diverse audience

# EDUCATION

**Diploma | 2020 | Ghana Institute of Management and Public Administration**

**Degree | 2023 | Kwame Nkrumah University of Science and**

**Technology**

# PROJECTS

## TRIPMANIA                                                    **View on GitHub**

- I designed and developed a cross-platform travel app using Flutter to provide users with an intuitive and efficient way to plan and manage their trips
- Integrated with Google Maps API for location-based search and navigation

# LANGUAGES

- Fluent in English
- Intermediate in German
